INFOCARD **SPA_COMPLETE**

THE SPA CANOPY TRANSFORMS THE MASSAGE INTO A MULTISENSORY WELLNESS EXPERIENCE

Spa_Canopy

The optional SPA canopy of the **well**system Wave_Touch and Medwave_Touch transforms the hydro-massage into a relaxing world of light, color, aromatic scents, and meditative sounds – creating a deeply soothing wellness experience. For a moment of deep relaxation – with long-lasting effects.

LIGHT & COLOR FOR A BETTER SENSE OF WELL-BEING

Colors and light can enhance well-being and have numerous positive effects on both body and mind. The color light programs and the skin-caring Beauty Light were developed in collaboration with a light biologist.

RELAX

Green relaxation light calms the mind and helps you unwind, promoting a deep sense of well-being.

RECHARGE

Orange-red light activates natural energy reserves – ideal for regeneration after physical exertion.

ACTIVATE

Sky-blue light lifts your mood, boosts concentration, and revitalizes both body and mind.

RAINBOW

The changing spectrum of colors allows you to experience all the colors of the rainbow during the massage – for a harmonious combination of all light effects.

BEAUTY LIGHT

The high-intensity LED Beauty Light combines red light with near-infrared technology. It stimulates natural collagen production, tightens the skin, and, with regular use, can visibly improve the skin's appearance – for a youthful, fresh radiance.

SOUND WORLDS – PERSONALIZED & MEDITATIVE

The integrated sound system accompanies the massage with relaxing music and meditative. Bluetooth® connectivity allows easy pairing with your smartphone – for music, podcasts, or guided relaxation sessions of your choice.

AROMA SCENTS – HARMONY FOR THE SENSES

Scents have a direct influence on our mood and can either invigorate or relax us. Carefully selected aroma compositions enhance relaxation and transform the massage into a truly sensual experience.
